CAREER OBJECTIVE

Hard-working recent college graduate with an Interdisciplinary Studies degree with emphases in Computer Science & Management, with 8 months of work experience. Aiming to leverage academic experience and a proven knowledge of website architecture, web page content, and web platform development to successfully fill the Website Developments and General Managements role at your company. Frequently praised as hard-working by my peers, I can be relied upon to help your company achieve its goals.

PROFESSIONAL EXPERIENCE

WEBSITE DEVELOPER & SOCIAL MEDIA MANAGER

International Relief & Human Rights Initiative, Spokane, WA / May 2019 – Present

- Design, build, or maintain web sites, using authoring or scripting languages, content creation tools, management tools, and digital media.
- Perform or direct web site updates.
- Write, design, or edit web page content, or direct others producing content.
- Confer with management or development teams to prioritize needs, resolve conflicts, develop content criteria, or choose solutions.
- Back up files from web sites to local directories for instant recovery in case of problems.
- Write supporting code for web applications or web sites.
- Communicate with network personnel or web site hosting agencies to address hardware or software issues affecting web sites.
- Respond to user email inquiries, or set up automated systems to send responses.
- Select programming languages, design tools, or applications.
- Develop and manage annual budgets for information technology projects.
- Post and updates on the organization's social media accounts
